

MINI EXCAVATOR | 8025ZTS / 8026CTS

STAGE V

OPERATING WEIGHT
2860kg / 2867kg

ENGINE POWER
18.9kW

BUCKET TEAROUT
24kN / 23kN

EFFICIENT PERFORMANCE.

Both machines are fitted with an 18.9kW Stage V engine, developing 97.9Nm of torque at just 1400rpm for the ultimate blend of performance and fuel efficiency.

HIGH PERFORMING HYDRAULICS

We've used the latest hydraulic technology to deliver supreme excavating capabilities.

EASY MAINTENANCE.

Wide opening service access panels are supported with gas struts, to give greater access for daily checks.

EASY TRANSPORTATION

Our mini excavators are light enough to tow behind a 3500kg towing capacity vehicle.

SAFER WORKING.

Our unique 2GO safety system, fitted as standard, requires the operator to press a secondary acknowledgement switch before the controls become active.

LED WORKLIGHTS

Powerful LED worklights allow you to carry on working, whatever the time or ambient conditions.

COMFORTABLE CHOICE.

Choose from zero or conventional tailswing to suit the application. Both machines also have the option of either a cab or canopy to suit the working environment.

PRECISION CONTROL

An electro-proportional auxiliary thumb control option places hydraulic precision at your fingertips.

BUILT TO LAST.

High-strength track legs boast three-piece fabrication, to maximise rigidity and improve track retention.

JCB LIVELINK

JCB LiveLink is available as an option, to let you manage your machine remotely at any time.

MINI EXCAVATOR | 8025ZTS / 8026CTS

SPECIFICATION.

MODEL	8025 ZTS	8026 CTS
Bucket Tearout (kN)	24	23
